AVT TRANSACTION WINDOW

Innovative transaction window solutions for ballistic protection

PRODUCT DESCRIPTION

The Insulgard AVT Bullet Resisting Transaction Window is designed to meet safety requirements for various applications including the secure passage of money and documents. The window is constructed from ballistic rated glazing materials and features a natural voice transmission rail, stainless steel deal tray and a countertop. Both interior and exterior models are available. Extra deep base for passing larger items is available.

STANDARD SIZES

- 29" x 40"
- 30" x 48"
- 48" x 42"
- 60" x 42"

FEATURES

- Glazing is rated for ThreatLevel 1, 2, and 3 based on UL752 standards
- Natural voice transmission system
- Extruded aluminum voice rails
- Stainless steel or solid surface deal tray
- High pressure laminate, stainless steel or solid surface counter
- Delivered assembled and ready for installation
- Stainless steel deep pass-thru tray optional

APPLICATIONS

- Cash payment windows
- Ticket windows
- Reception / Interview windows
- Hotel / Motel

*Each end user should determine their ballistic threat and identify the appropriate product(s) to resist that threat.

CONSTRUCTION

Window

- The window has extruded aluminum sides around voice tubes which surround the vertical and top edge of bullet resistant glazing.
- Window glazing materials help to protect against Threat Levels 1, 2 or 3 based on UL752 ballistic standards for specified bullet resistance.
- The bullet resistant protection level may be specified by the end user and be consistent with the threat level.

UL752 Ballistic Rating Options

- Level 1: 1¼" Acrylic
¾" Lexgard® MP750
- Level 2: 1" Lexgard® MP1000
1⅜" Acrylic
- Level 3: 1¼" Lexgard® SP1250
BALULN25 Armor-Gard®

Voicerails

Optional voice rail finished include:

- Clear Anodized
- Dark Bronze Anodized
- Painted
- Exterior option consists of built-in flaps

Countertop/Base

- The standard base is constructed from layered particle board with a plastic laminate covering.
- The countertop/base is also available in the following materials: Stainless Steel, Solid Surface
- The base is armored with bullet resisting material consistent with the threat level as defined by the end user.
- The deal tray is stainless steel with (optional) a bullet-trap below.
